

February 16, 2020

Coronavirus Statement, Released for Public Access at www.cotsworks.com and www.ruggedfiberoptics.com.

Effective February 16, COTSWORKS has evaluated its supply chain and the effect of the global epidemic which is occurring. The company has reviewed its optical components, semiconductors, passive parts, PCBs, fiber cable, termini, connectors, and suppliers. Currently, 90 days of backlog of product is available to ship without impact.

Future orders will depend on factories in China restarting.

Development of new products will be affected as well.

At this time, the company is operating normally in both the Cleveland, OH USA and Fulda Germany locations.

COTSWORKS staff will not be travelling to China at this time and will follow all United States and German Government safety and health directives for its citizens.

Further updates will be made as verified information is available.

Sincerely,

Ken Applebaum
CEO
COTSWORKS
