

125Mbps to 5Gbps

**Rugged RJ Size Fiber Optic Transceiver** 

#### Features:

- 125Mbps to 5Gbps duplex data links
- Compliant to 802.3z Ethernet, Fibre Channel (1x/2x/4x), Infiniband, sFPDP, XAUI, FCAV and ARINC 818
- ATEX and IECEx certified configuration available (contact COTSWORKS)
- 850 nm VCSEL laser transmitter and PIN receiver
- Typical reach of 500 m on 50/125 and 250 m on 62.5/125 μm MMF
- Duplex LC or Dual ARINC-801 connector options
- -40 to +85°C operating temperature standard, -55 to +95°C option
- Option for RoHS 6/6 compliant and lead free per Directive 2011/65/EU
- Single +3.3V power supply
- AC-Coupled Transmitter & Receiver Data
  - 1x12 Electrical Interface with Digital Diagnostics (DDMI) standard
- Common Pin-Out configuration
  - Matches COTSWORKS RJ-10G device pin assignments

The RJ-5G-SX-C is ideal for harsh environment connectivity because of its low cost, availability, and wide operating parameters

#### **Absolute Maximum Ratings**

| PARAMETER                       | SYMBOL           | MIN. | MAX. | UNIT | NOTES                          |  |  |  |
|---------------------------------|------------------|------|------|------|--------------------------------|--|--|--|
| Maximum Supply Voltage          | Vcc              | -0.3 | 4.0  | V    |                                |  |  |  |
| Storage Temperature             | T <sub>sto</sub> | -55  | 105  | °C   |                                |  |  |  |
| Operating Temperature           | T <sub>OP</sub>  | -40  | 85   | °C   | -55°C to 95°C option available |  |  |  |
| Relative Humidity               | RH               | 0    | 85   | %    | Based on conformal coating (1) |  |  |  |
| Hot Bar Soldering Temperature   |                  |      | 260  | °C   | 10 seconds, leads only, (2)(3) |  |  |  |
| Hand Lead Soldering Temperature |                  |      | 260  | °C   | 10 seconds, leads only, (2)(3) |  |  |  |
| Conformal Coating               |                  | 0.8  | 1.2  | mil  | See ruggedization notes        |  |  |  |
| NI - 4                          |                  |      |      |      |                                |  |  |  |

Notes:

1)RJ transceivers may be water washed. The process must be followed by an 80°C bake for one hour to ensure drying of any water inside the shell. 2)For optional solder post version, solder posts are intended for mechanical retention only and do not have to comply fully to IPC J-STD-001 Class 3 3)The components should not undergo Reflow Soldering under any circumstances.

### **General Specifications**

| Signal Detect Hysteresis          | PA - PD              | 1    |      | 5    | dB    |                      |

Notes:

1) Measured at the end of a 2m to 5m  $62.5\mu m$  multi-mode fiber patch cord

2) Measured running 4.25 Gb/s, PRBS 2<sup>7</sup>-1 data

3) Applicable between the extended temperature ranges of -55°C to -40°C and 85°C to 95°C

4) Class 1 Laser Safety per FDA/CDRH and IEC-825-1 regulations

5) Measured using PRBS 27-1 pattern

6) Measured running 4.25 Gb/s, K28.5 test pattern

### **Digital Diagnostics Information**

The COTSWORKS RJ-5G-SX-C features signal pins for a 2-wire bus which are required in order to access digital diagnostics compliant to SFF 8472 multi-source agreement.

The transceiver pinout, including the pins provided for 2-wire communication to access the digital diagnostics, is shown on page 2 under the section "Pin Configuration".

Rugged RJ Size Fiber Optic Transceiver

**Rugged RJ Size Fiber Optic Transceiver** 

## **Mounting Hardware Guidelines**

6. The pins are phosphor bronze 510 spring temper with 10 micro-inches of gold.

### **Ruggedization Notes**

- Parylene C coating can be used for conformal coating with a 1.0 mil ± 0.2 mil thickness through a deposition process
  It has a 5600 VPM rating, withstands high temperatures, extremely resistant to oil/dirt, and object impact
- This part is also available in a pigtail fiber optic version. Contact COTSWORKS for available fiber and termini options.
- Transceiver case is nickel-plated

#### **Reference Information**

1) IEEE Standard 802.3, 2002 Edition

2)Directive 2011/65/EU of the European Parliament and of the Council, "on the restriction of the use of certain hazardous substances in electrical and electronic equipment." June 8th, 2011

### **Regulatory Compliance**

• COTSWORKS transceivers are Class 1 Laser Products and designed to comply with US FDA regulations.

- These products are designed to comply with Class 1 eye safety requirements of EN (IEC) 60825 and the electrical safety requirements of EN (IEC) 60950.
- This part has an option for compliance with Directive 2011/65/EU covering restriction on certain hazardous substances (RoHS)
- ATEX / Ex Protection Provided: op is, [Ex op is T4 Ga] IIC
  - Contact COTSWORKS support for a product compliance matrix

#### Warnings:

Handling Precautions: This device is susceptible to damage as a result of electrostatic discharge (ESD). A static free environment is highly recommended.

Laser Safety: Radiation emitted by laser devices can be dangerous to human eyes. Avoid eye exposure to direct or indirect radiation.
