

Assembly & Test Technician (Fiber Optics)

(Entry-level experience is helpful. Training will be provided.)

Do you consider yourself a “tinkerer”? Did you get into trouble as a kid for taking your dad’s radio apart just to see how it worked?

*Do you want to get involved in the progressive technology of **fiber optics**? Would you like to work for a growing company where the parts you build end up in airplanes or military submarines?*

If so, then working for COTSWORKS as an **assembly & test technician** may be the perfect role for you! A high school diploma or equivalent is required. However, experience in fiber optics is not required – we just need reliable people with good hand dexterity and detail orientation – we can train you on the rest! Apply with us today!

This is a **full-time position** with a stable, growing company in a **clean, safe, organized work environment** where **quality is a top priority**. Your responsibilities will include **assembling, disassembling, testing, and inspecting small parts and components** using a variety of hand tools and electronic equipment. You will read and follow detailed work instructions and keep accurate records of your work. Some of the work is completed under magnification.

COTSWORKS values individual growth and development and promotes from within when possible. Come join us as an **assembly & testing & technician** and see where it might take you!

U.S. Citizenship Required (no green card or visa)

About COTSWORKS

COTSWORKS, INC. is a leader in the Industrial, Military, and Aerospace fiber optics and networking market and is seeking individuals who want the opportunity to work with good people and for a growing company that recognizes the importance of work-life balance, offers a great work environment, competitive pay and benefits, and opportunities for career advancement.

COTSWORKS designs and manufactures rugged optical components and subsystems to operate in harsh environments. Our products are utilized worldwide in commercial and military aerospace, military tactical, oil and gas, and other industrial markets. Founded in 2006, the company, headquartered in Cleveland, Ohio, supports the Americas and Asia – while COTSWORKS' GmbH, located in Fulda Germany, supports Europe and the Middle East.

Join our industry leading team as we grow and help change the way that communication systems are made in aircraft and military applications. Help us spread the benefits of high-speed optical data to more customers domestically and internationally!
